

March 4, 2024

Dear Friend,

Becoming a nurse fulfilled a dream of mine to make a positive difference in the world by physically caring for others.

A unique profession, nursing blends science, art, and service. Our ability to make deep connections and lasting impressions with our patients and families, sometimes within minutes, is something I cherish. It is no wonder that year after year nursing is one of the most globally-trusted professions.

As a nurse, I am proud to say that I work for Concord Hospital health system. We are a passionate group of people who support each other – both professionally and personally – and strive each and every day to provide the service our communities need and deserve.

By making a gift through our CHampions Employee Giving Campaign, we are provided a unique opportunity to support the areas within our health system that we are most passionate about.

Because I have worked alongside incredible nurses and healthcare staff who have seen their own share of hardships, I donate a portion of my annual CHampions gift to the **Employee Helping Hands Fund**. This Fund makes monetary gifts available to help our coworkers going through unexpected, difficult times. I have known many who have benefited from such a gift...it makes my heart sing to know I helped make their lives better.

Additionally, I love contributing to **Therapeutic Arts and Holistic Services**. Funds directed here enhance both healing and the patient experience during difficult moments in our patient's lives. This robust program provides a variety of unique services rarely seen in community hospitals.

We all give for different reasons. Whether that be to support a colleague, a program of particular interest, or for the general well-being of our greater community, I invite you to join me in donating to a cause that gives you joy. Your gift, no matter the amount, makes a difference in the lives of others!

With thanks,

Dana Bisson, RN, MSN
Process Improvement Specialist

P.S. With so many valuable programs and services offered throughout our health system, a gift that gives back to our own Concord Hospital community is especially personal and gratifying...won't you join me
